Multi
Reader

/ Finger pass /

KJ-3400

The World slimmest Fingerprint Reader that is possible for
Access Control, Time Attendance and Meal debt System
One of the world's highest performing fingerprint
recognition rates

Specification

	KJ-3400 F	KJ-3400 D	KJ-3400 C
Fingerprint	YES	NO	NO
Display (1.8" TFT)	YES	YES	NO
Card	YES	YES	YES
Keypad	NO	NO	NO
CPU	32bit CPU		
RF Reader	125Khz(EM/Indala/HID Prox) 13.56Mhz(Mifare/iclass/iclass SE/Felica), BLE		
Finger Sensor	500 dpi Optical sensor		
Communication type	TCP/IP, RS-485 or RS-232, Bluetooth		
External Interface	Wiegand, USB Memory Card		
LED	Color LED		
Templates Capacity	5,000		
Event log	200,000		
Power	12V DC		
Product Size	48(W)×138(H)×38(D)mm		

Features

The world's fastest fingerprint readers
5,000 Fingerprints read recognition in 0.1seconds
Can save up to 200,000 events

AUTO & Direction Fingerprint Recognition
Can read fingerprints placed in any direction

1.8" Color TFT LCD
Full Touch Screen and High definition LCD
enhance the user's convenience

Slim Design
Designed for easy installation in limited spaces

AUTO

Automatic fingerprint recognition
Automatically read and recognize fingerprints, needles to press Start Button

500dpi Optical Sensor

Various RF Cards
125khz(EM/Indala/ HID Prox)
13.56Mhz(Mifare/iClass/iClass SE/Felica etc)

Language : Multiple language
Default is Korean / English
Can support multiple languages

Water & Dust proof of IP65 grade
Designed fof water & dust proof IP65 grade, prevents dust and water stream in all directions

Configurable Access control
The ability to set a specific date & time zones to control

System Layout

- Safe, secure, and economical access control system
- Any new installations can be integrated into existing access control systems
- Securing facilities, reducing costs via time management

CONTROLLER TYPE (KJ-3400)

READER TYPE (KJ-3400)
